PRIVATE AND PUBLIC INVESTMENT -INTENTIONS 2002

Statistics Canada has released preliminary estimates of capital investment intentions for Canada and the provinces for 2002. All previously published data back to 1991 has been revised effective with this release.

	2002 Intentions (\$Millions)	2001 Preliminary Actual (\$Millions)	Percent Change
Total Capital	5,235.9	5,337.4	-1.9
Private Capital Investment	3,799.7	3,884.9	-2.2
Public Capital Investment	1,436.2	1,452.4	-1.1
Manufacturing Investment	494.3	589.1	-16.1

Total new capital investment for Manitoba is forecast at \$5.24 billion this year, down \$101.5 million (-1.9%) from the revised 2001 level of \$5.34 billion. This year's slight forecast decline for Manitoba follows growth of 3.0% in 2001. New capital investment is expected to decline by 1.0% nationally in 2002.

Nearly 85% of our forecast decline in total capital spending for 2002 is in the private sector. Manitoba private sector capital investment this year is forecast to total \$3.8 billion, down \$85.2 million (-2.2%) from last year. Lower private sector spending is forecast for eight out of ten provinces this year, with Saskatchewan (up 9.7%) and Nova Scotia (up 4.9%) expected to post the only increases. The 2.2% decline expected in Manitoba is a little smaller than the 2.7% decrease forecast at the national level.

Capital investment in Manitoba's manufacturing sector is expected to decline by 16.1% (\$94.8 million) in 2002, following a drop of 7.2% in 2001. Most of our manufacturing investment decline for 2002 is concentrated in smelting and paper manufacturing, and largely reflects the completion of major investment programs in 2001.

The other significant areas of decline for 2002 are in transportation (down \$57.1 million or 14.1%) and information and cultural industries (down \$18 million or 7.4%). But there are a few areas of growth as well, the largest of which are mining (up \$29.1 million or 12.4%) and retail trade (up \$26.2 million or 14.8%).

Total public sector capital spending in the province is forecast to reach \$1.45 billion this year, down 1.1% (\$16.2 million) from levels in 2001. This follows a 10.8% (\$141.1 million) increase last year. Public sector investment at the national level should see an increase of 6.6% in 2002.
